Pine Nuts Go Up, Too

R. S. Titlow autoed to Montezuma yesterday and bought some pine nuts from an Indian. The price was considerably higher than was asked by the same Indian on a previous occasion and was asked for a reason for the big increase, particularly as the crop is heavy this year. The Indian answered: "Sugar, flour go up; pine nut go up."—Goldfield Tribune.

"Gets-It" Never Fails for Corns!

There's Nothing on Earth Like It For Corns and Calluses.

"Whenever you get corns and calluses, don't experiment—just use 'GETS-IT' and nothing else. Easiest and simplest thing I know to use—just a few drops on in a few seconds—'GETS-IT' does the rest." The old way is to bundle up your toes in harnesses and bandages, use salves that make toes raw, cotton rings that make your corns pop-eyed, knives and "diggers" that tear your heart out and leave the corn in. No wonder they make you limp and wince. Forget all these—use "GETS-IT," the simplest corn remedy in the world, easiest to use, never fails or sticks, painless. Your corn loosens, then you lift it off. You can wear smaller shoes.

"GETS-IT" is sold and recommended by druggists everywhere. 25c a bottle, or sent on receipt of price, by E. Lawrence & Co., Chicago, Ill.

MAGAZINE WRITER SAYS LOTS WATER IN NEVADA

In the American Magazine, this month's issue, there is an article about Nevada in which the writer says:

"There is a vast supply of artesian water in all of Nevada's valleys. Most of the rivers are peculiar in that they rise and sink within its borders. In other words, the water never leaves the state. It is still there for the taking."

"When I was a boy, a man with a divining rod appeared in Eagle valley and offered to locate artesian water at \$10 a well. He picked up quite a bunch of money. The wells he located are running yet. A blind man could hit one."

"The easiest thing they do in Nevada is to locate artesian water, with a pressure that lifts the supply above the surface. The soil of the state is rich in those necessary chemical elements that guarantee mastodon crops."

"At the present time the total number of acres under cultivation is about 900,000."

"Viewed from an angle, Nevada is one of the few states in the Union whose resources have not been developed. She is a state of boundless possibilities. A Goldfield rush or a Tonopah excitement is of no significance compared with the greater and more lasting achievements possible through its soil."

NEVADA HAS A TREE THAT GETS PEEVED

Perhaps few people know that a tree can be angry, but there is a kind of acacia in Nevada that not only gives every indication of being "touchy," but also gets very mad. It is about eight feet high and is a very rapid grower. At sunset it goes to sleep shutting its leaves together and coiling up its twigs like a pigtail. If one pulls the tail the tree shudders and moves uneasily and seems to be much disturbed. If disturbed by a shock, such as transplanting, the leaves stand out in all directions and quiver violently, but strangest of all, they send out a pungent nauseating odor. After getting "mad" this tree remains bad tempered for an hour or two.—Humboldt Star.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

QUALITY CANNED GOODS

We protect our customers by handling only such brands of canned goods whose makers have high reputations to uphold.

There are numerous poorer grades marketed which we have carefully avoided in selecting for our trade, though we might profit more by stocking them. The prices of these better grades are low enough to suit all.
